UX/Product Designer

Confident and creative UX/Product Designer with 10+ years in aligning business goals with user needs through user research, data-driven analysis, and thoughtful strategic design implementation. Passionate about integrating consumer psychology and inclusive design to deliver impactful, user-centered products and services. Known for excellent leadership, collaboration, and project management skills that ensure timely, on-budget results.

Hilton

Lead Product Designer
Senior Product Designer

Denver, Colorado
Oct. 2023 – Jul. 2025
Aug. 2023 – Oct. 2023

- Designed a bulk service that has updated over 82,000 hotels, saving 20,500+ hours or 2.3 years of work since Nov. 2024.
- Increased capabilities and number of hotels managing day-to-day work from 1,950 to 6,500.
- Designed six new products and optimized two existing products inside the Prodigy app.
- Led strategy, vision and end-to-end system design for Prodigy's expanding hotel management software.
- Led design workshops to collaborate and solve complex topics.
- Collaborated with cross-functional partners across Hilton to understand Prodigy impacts to user workflows.
- Mentored and led a junior UX designer, provided guidance on design execution, ensured alignment with project goals were met, maintained design consistency, and supported skill development.
- Executed user research and leveraged findings to inform design decisions.
- Used data and user research to inform decisions and articulate complex, scalable design visions.

VF Corporation

Senior User Experience Designer

Denver, Colorado
Jul. 2022 – Aug. 2023

- Led migration and upgrade of VF brand's design system from Sketch to Figma, enhancing workflow efficiency across brands including Vans, The North Face, Timberland, Smartwool, Altra, and Canvas.
- Increased communication and consistency across VF teams' design systems.
- Strategized with leadership on tool migration, Storybook implementation, and process improvements.
- Mentored junior UX designers with Figma training and ongoing design support.

Compass Real Estate

Senior Product Designer

Denver, Colorado
Aug. 2021 – Jul. 2022

- Designed a new client dashboard experience across iOS, Android, and responsive web to enhance collaboration in home search.
- In 2025, named a finalist for the Inman Most Innovative Client Experience Solution.
- Increased client-agent engagement by 20% and platform communication by 10%.
- Boosted agent payment plan adoption by 11%, recovering ~\$2K/month from a \$7M outstanding balance.
- Led design meetings, gathered requirements, conducted sessions, and presented strategic solutions.
- Used data and user research to inform decisions and articulate complex, scalable design visions.

Rhone, LLC

Senior User Experience Designer

Denver, Colorado
Oct. 2020 – Aug. 2021

- Led strategy and design for Rhone.com's consumer flows using UCD methodologies and qualitative data.
- Built new UX documentation and processes in an agile start-up setting.
- Created a low-budget customer feedback loop to drive improvements.

Cabela's / BassPro

User Experience Designer

Denver, Colorado
Oct. 2019 – Oct. 2020

- Improved account creation and checkout for native apps and web through user research and design.
- Worked closely with developers to refine mobile apps and design systems.
- Mentored two junior designers, enhancing their cross-functional communication and execution.

HomeAdvisor (Angie's List)

User Experience Designer

Denver, Colorado
Sep. 2018 – Sep. 2019

- Led the Gig Economy & External Partnerships team, launching a new consumer marketplace.
- Supported product and dev teams with responsive web and mobile integration for partnerships.
- Co-created a modular design system for cross-platform consistency with development partners.
- Directed a junior UX designer on project alignment and consistency.
- Used data and user research to inform decisions and articulate complex, scalable design visions.

Arrow Electronics

User Experience Designer

Denver, Colorado
Feb. 2016 – Sep. 2018

- Achieved ~5000% revenue growth, scaling from ~\$40K to \$2M/month, and raised AOV by ~300% in 2.5 years.

- Improved layout and documentation to reduce support contact by 40% and increase data engagement.
- Led Product Detail Page and Cart/Checkout design teams, using data and user research to guide design for web, tablet, and mobile.
- Developed streamlined UX processes within agile teams.
- Helped build a scalable design system and supported third-party collaborations.
- Executed user research and leveraged qualitative and quantitative data to inform design decisions and strategy.

Costanza Designs

Freelance Designer

Denver, Colorado

May. 2012 – Feb. 2016

- Consulted on various startups and established businesses on ux design, brand identity, and logo design.
- **eVue:** Updated eVue's digital streaming service application utilizing UX best practices.
- **Comcast:** Created a ux audit and heuristic evaluation for Comcast's cable tv service experience.
- **Footers Catering:** Co-created an app using ux best practices and UCD methods for the hospitality industry.
- **The Collective:** Developed brands and client marketing through web development, graphic design and brand identity.
- **Switchback:** Created the brand identity, marketing materials and logo design for a startup.
